

THINKVISION T25m

WIDER VIEW. BETTER EXPERIENCE.

CUTTING-EDGE FEATURES. SOPHISTICATED VISUALS.

The ThinkVision T25m-10 25-inch monitor with a 16:10 aspect ratio, offers 8% larger display area than a traditional 24-inch 16:10 monitor, perfect for commercial users who need additional screen real estate. Engineered to produce lifelike visuals, the WUXGA 1920 x 1200 resolution display offers remarkable clarity. Modern connectivity options on the T25m enable easy collaboration along with performance. The USB Type-C cable and integrated speakers combo offers an impressive audio-visual experience. The ergonomic built provides optimum user comfort. With a NearEdgeless screen and smart, productivity-boosting features, the ThinkVision T25m is the next-generation display.

FEATURES OF THINKVISION T25m-10

WUXGA
1920 x 1200

Stunning Visual Experience

Enjoy stunning views from all angles with the In-Plane Switching display and wide viewing angle. With up to 4ms response time, the WUXGA 16:10 display minimizes motion-blur and eliminates streaking for a seamless viewing experience. The 99% sRGB color space on the monitor makes color consistency a standard for any usage.

Advanced Connectivity

Connect and collaborate easily with ports such as USB Type-C, four USB 3.1 Gen1, HDMI, and DP. The modern USB Type-C port provides audio, data, and video delivery all via a single cable. It also supports the Smart Power function* that intelligently detects overall power consumption and dynamically manages the delivery. Plus, the internal speakers offer an immersive audio experience.

*Up to 75W power delivery to compatible devices by USB Type-C

Clarity with Comfort

Minimize eye fatigue with the TÜV Eye Comfort certified anti-glare display that protects the eyes from blue light emission. Find your ideal working position with the lift, tilt, pivot, and swivel functionalities. The tool-free design makes it easy to assemble. Also, the cable management hoop helps keep your desk organized and clutter-free.

*The Smart Power function intelligently detects overall power consumption and dynamically manages the power delivery to other devices. 75W power delivery by USB Type-C can be achieved when downstream USB ports are not connected and OSD brightness setting is <31.

Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.1 Gen1; 10 Gbit/s for USB 3.1 Gen2 & 20 Gbit/s for USB 3.2.
