

ThinkVision VoIP Monitors

Experience seamless collaboration

Efficient collaboration has become imperative in today's workspaces as the workforce is no more limited to the four walls of an office. In fact, 75% of all employers¹ feel that collaboration is "very important" in the workplace today. Advanced features such as VoIP functionality allow teams to collaborate effectively wherever they are.

ThinkVision VoIP Monitors provide a smart collaboration solution that empowers today's workforce.

What is a Lenovo VoIP Monitor?

It's more than just a display screen. The Lenovo ThinkVision VoIP Monitor enhances the collaboration experience with innovative features – from built-in front-facing webcam and speakers to noise-cancelling microphones to smart face-tracking. It's also ergonomically designed to boost your productivity.

Now experience connectivity without the clutter as they are also USB Type-C² Monitors which enable safer network connection via Ethernet as well as daisy-chaining capability.³
