Push the limits of productivity,
creativity, and innovation

Lenovo

Lenovo
ThinkStation

Lenovo
ThinkPad

Why Lenovo

Lenovo focuses on power, performance, and industry-leading reliability in every ThinkStation and ThinkPad we design. By combining the absolute top-of-the-line components with groundbreaking designs, we are able to push our systems harder and have the raw power necessary to handle the most demanding workloads. Absolutely key for a top performing workstation is the ability to keep its components cool. This is where our patented Tri-Channel cooling in our towers and FLEX Performance cooling in our notebooks comes to fruition. These revolutionary designs allow CPUs and GPUs to run at peak performance until the job is done while simultaneously keeping the components cool, which makes for a long-lasting and reliable machine.

Lenovo

Design Philosophy

Architects, product and software designers, financial traders, medical professionals, and engineers all need high-performing, easy-to-use, dependable power to get the job done. Lenovo Workstations are designed from the ground up with customer-driven innovation, delivering the highest levels of performance, ease of use and industry-leading reliability. With our ingenious ThinkStation modular design, making upgrades and customizations is effortless and supports a staggering number of possible configurations. The combination of our ground-breaking design with the latest Intel® and AMD Professional CPUs and NVIDIA RTX™ professional GPUs delivers the absolute best possible user experience to turn ideas into reality.

Key Features

Ultimate Power & Performance

Powered by the latest Intel and AMD Professional CPUs and NVIDIA RTX Professional GPUs for maximum power and performance.

Expanded Solutions Expertise

Expanded support of emerging technologies such as AI and AR/VR, as well as software tools to optimize performance.

ThinkShield Security

Built with an advanced, comprehensive suite of ThinkShield features for the ultimate in security.

Tested & Certified

Tested and certified by independent software vendors (ISVs) to support the applications you need.

Sustainable Materials & Certifications

Manufactured and packaged responsibly to reduce carbon emissions without compromising on quality.

Enhanced Serviceability

Front panel LCD for error detection and tool-less modularity for easy upgrades and custom configurations.

ThinkStation P3 Tiny

Engineered to go where others can't, the Lenovo ThinkStation P3 Tiny combines simple and efficient design with professional-level power. The industry's smallest workstation at only one liter in total volume, it offers uncompromising performance in a form factor that is 96% smaller than a traditional desktop. Featuring the latest Intel vPro® with 13th Gen Intel Core processors and up to NVIDIA T1000 graphics, this tiny but mighty system boasts support for a wide range of accessories and up to six independent displays.

Incredibly versatile with an array of mounting options, the ISV-certified P3 Tiny provides a reliable, easy-to-deploy solution for professionals across architecture and engineering, finance, healthcare, and STEM education—a proven industry workhorse in a conveniently pint-sized package.

The World's Smallest Workstation

Key Features

Processor
Intel vPro with 13th Gen Intel Core

Graphics
Up to NVIDIA T1000

Power Supply
170W, 230W, or 300W
(up to 90% efficient)

Memory
64GB DDR5 5600MHz*

Storage
Support for Dual M.2 PCIe
Gen4 NVMe SSDs

Display
Support for up to
6 Independent Displays**

* Memory spec frequency listed; system support frequency may vary by configuration
** Available with Discrete Graphics Only

ThinkStation P3 Ultra

The Lenovo ThinkStation P3 Ultra features a revolutionary form factor that is redefining the power of small. With blazingly fast Intel vPro with 13th Gen Intel Core processors, now up to 24 cores, and support for up to NVIDIA RTX™ 4000 SFF Ada graphics, this system packs an unimaginable level of power and performance in a chassis less than four liters in total volume. Boasting 128GB of memory, PCIe Gen 4 for high-speed data transfer, up to 8TB of M.2 storage, and dual onboard ethernet ports, this workstation breaks new ground with an intelligently compact design that doesn't compromise on functionality.

Ideal for demanding workflows that require flexible configurations and maximum space-savings, the purpose-built P3 Ultra is exactly what many professional users have been longing for—especially as they keep up with modern workplace changes. Now more than ever, organizations are hiring hybrid and remote workers, deploying additional resources to compute at the edge, and trying to do it all with minimal environmental impact.

The Evolution of Small

Key Features

Processor

Intel vPro with 13th Gen Intel Core

Graphics

Support for up to NVIDIA RTX 4000 SFF Ada

Memory

Up to 128GB DDR5 5600MHz ECC or non-ECC*

Storage

Up to 8TB M.2 PCIe NVMe Gen 4 Performance SSDs

USB

7 USB Ports (3 Front, 4 Back) including 2 Thunderbolt Ports

Display

3 DisplayPorts with Support for up to 8 Displays

* Memory spec frequency listed; system support frequency may vary by configuration

ThinkStation P358

Workstation power is now within your reach with the ThinkStation P358. Built for mission-critical tasks that require superior reliability and performance, the ThinkStation P358 leads on both counts and does it with exceptional all-around value. Perfectly configured for the work you do, this ISV-certified system features the latest AMD Ryzen™ PRO processors, NVIDIA RTX graphics, and support for power supplies up to 750W, offering premium performance at an affordable price.

The ideal workstation solution for entry-level CAD, product design, STEM educators and students alike, the versatile P358 is built to meet your individual workflow needs without breaking your budget.

*Power of a Workstation,
Price of a Desktop*

Key Features

Processor
AMD Ryzen PRO

Graphics
NVIDIA RTX A2000

Memory
Up to 128GB DDR4 3200MHz

Storage
Up to 10TB including up to 2TB M.2 PCIe NVMe SSDs

USB
9 USB Ports (5 Front, 4 Back)

Power
Up to 750W Power Supply (92% Efficient)

ThinkStation P3 Tower

Experience the power of a workstation at the price of a desktop with the Lenovo ThinkStation P3 Tower. Built for mission-critical tasks that require superior reliability and powerful performance, the ThinkStation P3 Tower leads on both counts and does it with exceptional, all-around value. Perfectly configured for the work you do, this system features an all-new chassis with Intel vPro with 13th Gen Intel Core processors, now up to 24 cores, expanded storage with RAID flexibility, and higher power supply options up to 1100W. This powerhouse in the entry space is ISV-certified and can support up to NVIDIA RTX 5000 Ada professional graphics.

Designed to provide value and performance, the P3 Tower offers up to 128GB of DDR5 memory and PCIe Gen 4 for high-speed bandwidth. The perfect workstation solution for designers, engineers, and students looking for versatility, flexibility, and breakthrough performance, the ThinkStation P3 Tower provides the value you need without compromising on compute power.

*Engineered by Engineers
for Engineers*

Key Features

Processor
Intel vPro with 13th Gen Intel Core

Graphics
Support for VR-ready
NVIDIA RTX 5000 Ada

Memory
Up to 128GB DDR5 5600MHz*

Storage
Up to 8TB M.2 PCIe Gen4
NVMe SSDs

Power Supply
500W, 750W, or 1100W
(92% efficient)

USB
9 USB ports (5 front, 4 rear)

* Memory spec frequency listed; system support frequency may vary by configuration

ThinkStation P5

Engineered for ultimate versatility, the Lenovo ThinkStation P5 is the all-around industry workhorse for professionals that demand scalable, future-proof solutions. Featuring an all-new Aston Martin inspired chassis design, the latest Intel Xeon W processors, and support for up to two NVIDIA RTX A6000 graphics cards, you can rely on the P5 to pack enough punch for any workflow, even in mission-critical environments.

Optimized for designers, engineers, and creatives alike, this workstation can support a broad range of compute-intensive tasks with ease. Improve your productivity with high-speed DDR5 memory and ultra-fast PCIe Gen 5 bandwidth. And with convenient front access storage and an array of high-performance configurations available, enjoy the flexibility of customizing your P5 to tackle the workload needs of today, knowing you can easily upgrade for the ever-increasing datasets of tomorrow.

The Future-proof Industry Workhorse

Key Features

Processor
Intel Xeon W processor
(up to 24 cores, up to 4.8GHz)

Graphics
Up to 2 NVIDIA RTX A6000

Memory
Up to 512GB DDR5 4800MHz ECC*

Power Supply
750W or 1000W
(up to 92% efficiency)

Storage
Up to 48TB with 6 Total Drives
for Ultimate Flexibility

Accessibility
Front drive access and
tool-less accessibility

* 4800MHz max speed; available depending on configuration

ThinkStation P620

The ThinkStation P620 was the first AMD Ryzen™ Threadripper™ PRO powered workstation, delivering game-changing power and speed with the largest core count in a professional workstation: up to 64 cores and 4.5GHz. Perfect for those who demand more power for multi-threaded applications, the P620 combines Lenovo's legendary reliability, experience and customer-driven innovation with professional manageability and enterprise-class support.

Purpose built with the speed and configurability you crave, this powerhouse workstation offers PCIe Gen4 for increased storage speed and expandable memory, as well as unmatched NVIDIA graphics support, and 10Gb of built-in ethernet—a new standard in connectivity.

*Game Changing Power,
Reliability and Speed*

Key Features

Processor
AMD Ryzen Threadripper PRO
(up to 64 cores; up to 4.5GHz)

Graphics
Up to NVIDIA RTX 6000 Ada or
Up to 2 NVIDIA RTX A6000

Memory
Up to 512GB DDR4 3200MHz ECC

Ethernet
Standard 10Gb

Storage
Up to 48TB with Gen4 Support for
PCIe Slots and M.2 SSDs

Thermals
Air Cooled Thermals

ThinkStation P7

The bold Lenovo ThinkStation P7 is a force to be reckoned with and brings together a breakthrough new compute architecture with an optimized thermal design in a versatile, Aston Martin-inspired chassis.

Featuring the latest Intel Xeon W processors, the P7 delivers up to 56 cores, robust PCIe Gen 5 connectivity, and high-speed DDR5 memory—all in a single-socket platform. Combined with the power of up to three NVIDIA RTX 6000 Ada Generation, the P7 is undaunted by massive datasets and tackles compute-intensive, multithreaded tasks head-on.

Rack-optimized for enterprises that demand flexibility between desktop and data center environments, the ThinkStation P7 breaks new ground by taking on workloads that were traditionally reserved for cloud or server resources—all while maintaining non-disruptive workstation acoustics.

Staggering, Single-Socket Power

Key Features

Processor

Intel Xeon W processor
(up to 56 cores, up to 4.8GHz)

Graphics

Up to 3 NVIDIA RTX 6000 Ada

Power Supply

1000W or 1400W
(up to 92% efficiency)

Storage

Up to 52TB Internal Storage with
up to 7 Total Drives**

Memory

Up to 1TB DDR5 4800MHz ECC*

Ethernet

Standard 1 Gigabit and 10 Gigabit

* 4800MHz max speed; available depending on configuration

** Depending on drive configuration

ThinkStation PX

Co-designed with Aston Martin, masters of aerodynamics, the PX is the epitome of form and function—combining a premium chassis with a fine-tuned thermal design that pushes out maximum performance from its ultra-high-end components.

Featuring the latest 4th Gen Intel Xeon Scalable dual processor architecture, up to 120 cores, and support for up to four NVIDIA RTX 6000 Ada Generation GPUs, this workstation goes beyond the limits of desktop performance to power even the most extreme workloads.

Offering flexibility for both desktop and data center environments, the ThinkStation PX is a versatile workstation that bridges the gap where previous solutions fell short. With an iconic, rack-optimized chassis and the processing power of multiple high-end GPUs, the PX was designed from the ground up to run the most complex computing tasks seamlessly.

With the option to include a dual redundant PSU, be confident in system stability when running mission-critical applications. Achieve next-level productivity with up to 2TB of DDR5 memory and ultra-fast bandwidth through PCIe Gen 5 lanes. Enable enterprise-wide digital transformation, with a workstation that facilitates virtual workflows and multi-user collaboration.

*The Pinnacle of
Lenovo Technology*

Key Features

Processor

Dual 4th Gen Intel Xeon Scalable
(up to 60 cores per CPU,
up to 4.1GHz per CPU)

Graphics

Up to 4x NVIDIA RTX 6000 Ada²

Memory

Up to 2TB DDR5 4800MHz ECC¹

Power Supply

1850W (92% efficient)
Optional redundant power supplies²

Storage

Up to 60TB Internal Storage with
up to 9 Total Drives³

Accessibility

ThinkPad P14s

The Lenovo ThinkPad P14s, our thinnest and lightest mobile workstation, offers on-the-go performance at a comfortable price point, all in a 14-inch chassis with an optimized 16:10 display. Built with the latest AMD Ryzen PRO processors and integrated AMD Radeon graphics, the P14s is ISV certified, powering applications such as AutoCAD®, Revit® and SolidWorks® without missing a beat.

Perfect for highly mobile power users with an advanced suite of ThinkShield security features and comprehensive MIL-SPEC testing for ultimate durability, the P14s gives entry-level professionals, educators, and students alike the ability to innovate freely wherever life takes you.

*Lenovo's Best
Value Mobile
Workstation*

Key Features

Processor

ThinkPad P16s

The Lenovo ThinkPad P16s provides a perfect mix of performance, sustainability, and power on-the-go at a comfortable price point, packed in a thin and light 16-inch chassis. Featuring the latest AMD Ryzen PRO processors and integrated AMD Radeon graphics, and high-speed LPDDR5x memory, the ISV certified P16s was built to move with its users and keep up with them when running AutoCAD, Revit, SolidWorks, and more.

Designed with enhanced usability including a new 5MP RGB-IR camera, fingerprint reader, full numeric keypad, wider touchpad, and all-day battery capacity, the P16s is the ideal solution for engineers, architects, and students, whether collaborating in the office, on a job site, or when visiting customers.

ThinkPad P16v

Built for creators who demand more value, the Lenovo ThinkPad P16v takes everything in stride, closing the gap in price and performance between entry-level and high-end workstations. Packing the latest AMD Ryzen PRO processors and up to NVIDIA RTX 2000 Ada Generation graphics in an all-new chassis featuring a 16-inch 16:10 display, this workstation delivers a fast and visually stunning representation of your work. And with Ultra Performance Mode, a user-controlled performance boost that gives you the highest level of power and performance, you can tap into the full potential of your P16v.

The P16v is ISV certified and features advanced cooling with a dual thermal outflow in the rear of the system, ensuring any power user can push out maximum performance for large workloads and multitask with ease. Built with robust ThinkShield Security features, an integrated fingerprint reader, and MIL-SPEC tested for ultimate reliability, this ruggedly secure system is ideal for higher education, software developers, and beyond.

ThinkPad P1

Powerful, mobile, and visually stunning, the Lenovo ThinkPad P1 is the perfect combination of form and function, designed to be admired. This sleek design hints at what's inside: a powerful system that offers the professional performance of the latest Intel vPro 13th Gen Intel Core H series processors and support for up to NVIDIA RTX 5000 Ada Generation graphics. And with a liquid metal thermal design, the P1 provides advanced cooling performance and long-term reliability.

Boasting a 16-inch panel with a 16:10 aspect ratio, narrow bezel, and the option to include an OLED touch screen, the P1 is a content creator's dream. Designed with the modern user in mind, the P1 offers low blue light displays, Dolby Vision and color calibration for crisp, clear images, plus 4G LTE connectivity, creating the perfect combination of power, ultra-premium design, and true mobility.

Top-firing Dolby Atmos® Speaker System

ThinkPad P16

The Lenovo ThinkPad P16 is a power-packed mobile workstation built for the ultimate professional user. Designed for those who demand the highest level of power and performance while on-the-go, the ThinkPad P16 features the latest Intel vPro with 13th Gen Intel Core HX series processors and unmatched graphics with support for up to NVIDIA RTX 5000 Ada Generation.

The P16 powerhouse is built to handle the fastest PCIe Gen 4 storage technologies, provides greater memory capacity, full connectivity, and features a 16-inch 16:10 display—all while being certified to run demanding ISV applications without missing a beat.

Allowing users to do more and go farther with no sacrifice, the ThinkPad P16 has the best of everything in a 16-inch standout, modernized design.
