Lenovo ThinkPad Hybrid USB-C with USB-A Dock

A smarter way to work.

The ThinkPad Hybrid USB-C with USB-A Dock is a productivity solution for any USB-C or USB-A laptop, including non-Lenovo laptops from Dell, HP, and Apple, providing power, display, and port expansion in any mixed OS environment (Windows 10, Windows 11, macOS 13.0, macOS 14.0, ubuntu 22.04). Featuring enterprise-class manageability, like PXE boot and MAC address pass-through on select ThinkPad notebooks, the ThinkPad Hybrid USB-C with USB-A Docking Station offers USB port expansion[1] and includes a USB-C to USB-A adapter to provide port replication to non USB-C laptops[2]. This ThinkPad Hybrid Dock also supports dual monitor setups, up to dual UHD 4K resolution, and rapid charging to notebooks.

Why you need Lenovo ThinkPad Hybrid USB-C with USB-A Dock

One dock for all laptops
Enhances the performance of Lenovo USB-C laptops and tablets through USB-C connection, as well as previous generation and market notebooks through the USB-C to USB-A adapter.

Rich performance
Provides up to dual UHD 4K display with DisplayPort and HDMI ports. Up to 10 Gbps data transfer speed on three USB 3.2 Gen 2[1] ports, and rapid charging for most current ThinkPad family laptops.
Enterprise manageability and simplification
Host of manageability features like PXE boot, Wake-on-LAN from sleep mode, and MAC address pass-through. Ideal for enterprise customers.

---

[1] Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.2 Gen 1; 10 Gbit/s for USB 3.2 Gen 2.

[2] Lenovo USB-C & Thunderbolt™ Docks function with laptops that support industry standard USB-C Alt-Mode or Thunderbolt™ protocols through their Type C™ port. Lenovo USB-C and Thunderbolt™ Docks support additional features, such as MAC address passthrough, WOL and mirrored power button, on most Lenovo ThinkPad laptops, but such features may not be available on certain other Lenovo laptops or non-Lenovo branded laptop systems.

1   Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.2 Gen 1; 10 Gbit/s for USB 3.2 Gen 2.

2   The non-Lenovo laptops marked as compatible have been internally tested and verified to work and support display, power delivery, and port expansion. Any changes to laptop hardware or software, may result in changes to functionality or compatibility. In the event of this impacting you experience, please reach out to Lenovo support at https://pcsupport.lenovo.com/servicerequest or contact your account sales representative.

3   Lenovo USB-C & Thunderbolt™ Docks function with laptops that support industry standard USB-C Alt-Mode or Thunderbolt™ protocols through their Type C™ port. Lenovo USB-C and Thunderbolt™ Docks support additional features, such as MAC address passthrough, WOL and mirrored power button, on most Lenovo ThinkPad laptops, but such features may not be available on certain other Lenovo laptops or non-Lenovo branded laptop systems.
