

Lenovo ThinkPad

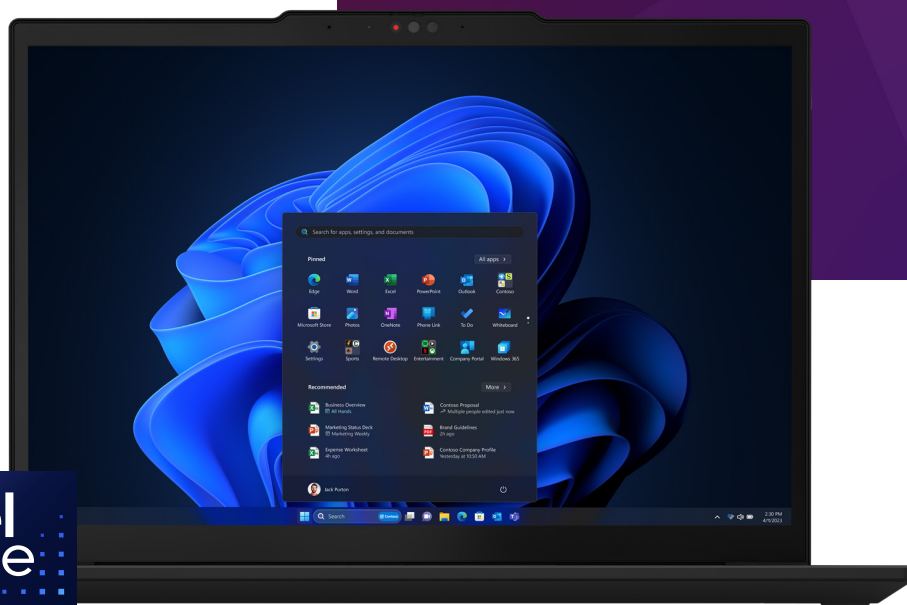

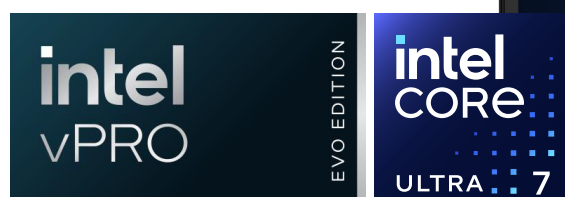

Smarter
technology
for all

Lenovo

The ThinkPad X13 i Gen 5 is built on the Intel vPro®, Evo™ Edition platform¹ for what IT wants and users need. Equipped with Intel® Core™ Ultra processors, it provides AI-assisted productivity along with Intel Arc™ graphics² for an enhanced user experience for optimal hybrid work and mobility. Light and thin, with anywhere productivity thanks to 5G¹ and Wi-Fi 7¹ as well as the all-day battery life, this premium Lenovo ThinkPad clamshell delivers performance, security, and flexibility for the modern workforce.

Enrich every collaboration with the split 5MP RGB+IR camera for improved visual quality and Dolby® Suite for enhanced audio—all while always staying secure with the webcam privacy shutter and Human Presence Detection¹. Plus, this Lenovo ThinkPad is engineered with purposeful sustainability in mind, from the low-temperature soldering used in manufacturing and PCC recycled product materials to our low-power display.

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We're determined to build a smarter future for all through the products and services we offer. And we partner with Intel, the industry leader in sustainable semiconductor manufacturing.

As we continue innovating to provide technology solutions that are more energy efficient and human-centered like the Lenovo ThinkPad X13 i, we stay focused on empowering you to meet your own sustainability goals—and solve humanity's greatest challenges.
